

Progetto “**Zero Waste = Sustainable World!**”  
Work package 2: Sustainable curriculum content

*The activities will be realized through the coordinated work of the formed curriculum development team. Project team Members perform time management by planning the tasks assigned to them during the project. This team organizes 6 Workshops every 4 months during the project. The workshop will be moderated by the coordinating body. In the workshops, each institution makes a presentation about its tasks. Presentations are made in the form of mutual information sharing.*
